Mr. Bergin:

Application No. 10/600,679 Filing Date 06/20/03

Applicant: Carman, Brent Atty. Docket SRC-012-P

Title: Sub-Lethal Wireless Projectile and Accessories

Thanks again for your assistance. Attached are all amendments for Application No. 10/600,679 properly listed. From our initial discussion, I believed a new claim (claim 16) would be required to satisfy the limitations we discussed; however, I believe the amendments to claim 2 satisfy them as now presented. If this is correct, then I believe claims 4,5, and 6 are now also within the limitations of the allowable claim. I would like claim 16 (new) considered, but if claim 2 is allowable, claim 16 is of lesser significance.

I look forward to your reply.

Should you have time to call, during normal working hours, I am at my university office, (864) 656-1296.

Respectfully,
